PROFILE

Specialized Technician in Digital Development (Full-Stack track), graduated in 2026, with hands-on Front-end (React) and Back-end (NestJS) development experience gained during an internship on a live, production SaaS product. Self-motivated, detail-oriented and solution-focused, I am looking for a Junior Full-Stack Developer role where I can apply my technical skills, contribute to real projects, and keep growing within a development team.

EDUCATION

Specialized Technician Diploma — Digital Development, Full-Stack track — *2024–2026 (graduated)*
ISTA (Institut Spécialisé de Technologie Appliquée), Ben Guerir, Morocco

- Agile methodology, database management, Front-end (React), Back-end (NestJS).

Vocational Diploma in Audiovisual & Film — *2023–2024*
Centre Multimédia, Ben Guerir, Morocco

Baccalaureate, Physical Sciences track — *2023*
Lycée Technique Rhamna, Ben Guerir, Morocco

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Internship — *April–May 2026 (1 month)*
AdSpace — multi-tenant SaaS platform for social media management

- Redesigned the user interface (UI) of the multi-tenant dashboard, aiming to improve readability and user experience.
- Integrated the YouTube and TikTok APIs to centralize publication management from a single interface.
- Worked within an Agile team on a live production product: took part in code reviews and sprint tracking.

ACADEMIC PROJECTS

Pharmacy Management System — *UI Designer & Full-Stack Developer*

- Designed mockups in Figma, then built a stock-management dashboard: HTML/CSS (frontend) and PHP/MySQL (backend).
- Demo: github.com/SARAH-SA-KURA/Medicines-website

Restaurant Ordering Mobile App — *UI/UX Designer (Figma)*

- Designed wireframes and a high-fidelity prototype, reducing the number of steps needed to place an order.

Online Course Platform — *UI/UX Designer*

- Designed a course-management interface with a personalized dashboard and course catalog.
